

Camping Packing List

The summer weather in Montana is typically warm & sunny. As you have probably guessed, Montana has lots of mountains and the weather can change quickly in the mountains. Unfortunately, the weather is the one element that is totally out of our control so we have created a packing list to have you covered in the sunshine but prepared for inclement weather too. Regardless of the weather, we want you to be comfortable and happy and the packing list will help ensure both. This list will also prepare you for a week of camping in Montana.

Luggage Recommendations

- 1 medium/large duffel bag, 1 backpack.

Essential carry-on luggage
